

ELECTIVE NAME

Advanced OB/GYN Inpatient

COURSE NO:

OGR 609

PREREQUISITE:

Req'd OB/GYN Clerkship

INSTITUTION:

Spectrum Health Butterworth

Saint Mary's Health Care

ORIENTATION:

The first day will serve as the student's orientation day. Each student will meet with the Program Director, be oriented on OBTV, and meet with the OB Triage to become familiar with the process. Visiting students will also be required to attend visiting student orientation @ GRMERC at 3:00 pm. The exact time and locations for each meeting will be given to the student within the week prior to the start of the clerkship.

OBJECTIVES:

- . The student will gain in-depth experience in the management of obstetrical patients in a community hospital setting.
- . The student will further develop basic clinical skills related to the care of female patients.
- . The student will learn to recognize high risk and complex obstetrical patients.
- . The student will have frequent exposure to common gynecological problems both surgical and non-surgical.
- . The student will gain experience in the total care of postpartum patients.
- . The student will observe specialized OB/GYN procedures.

DESCRIPTION:

This is an internship-like clinical experience in OB/GYN and the student will function as an involved team member. It offers participation in prenatal and postpartum clinics and in the management of obstetrical and gynecological problems in the outpatient setting. Students have the opportunity to observe specialized OB/GYN procedures, to assist as assigned in labor and delivery and to follow the progress of their OB patients. Students will be involved with management of high risk OB patients. The student is encouraged to attend weekly OB/GYN lectures and seminars.

The rotation consists of two weeks of Obstetrics and 2 weeks of Gynecology.

SCHEDULE:

The student is expected to round or see patients before morning report each day then sign out (at 5:00 pm or later). The Ob service begins rounding at 6:45 am and Gyn at 7:00 am. Each student will be required to take 4 weekday calls and 1 weekend call over the course of the rotation. Students must submit time off requests at least WHAT TIMEFRAME DO YOU WANT HERE?

DIDACTICS:

All students will attend Wednesday conferences and journal club while on the rotation. A schedule of these activities will be included in your orientation materials.

EVALUATION:

Preceptor(s) will be asked to submit a written evaluation at the conclusion of the clerkship. Faculty are encouraged to provide ongoing feedback throughout elective rotations.

(*seniors Intern Equiv.)

ELECTIVE NAME:

Advanced OB/GYN Outpatient

COURSE NO:

OGR 609

PREREQUISITE:

Required OB/GYN Clerkship

INSTITUTION:

Private Office and Clinics

OBJECTIVES:

The Student Will Gain In-depth Experience In The Management Of Obstetrical Patients In Private Office Settings.

The Student Will Further Develop Basic Clinical Skills Related To The Care Of Female Patients.

The Student Will Learn To Recognize High Risk And Complex Obstetrical Patients.

The Student Will Have Exposure To Common Gynecological Problems Both Surgical And Non-surgical.

The Student Will Gain Experience In The Total Care Of Postpartum Patients.

The Student Will Observe Specialized Ob/gyn Procedures, As Available.

DESCRIPTION:

This is a clinical experience in which the student will follow a specific preceptor in the private office and/or hospital clinic setting. Students have the opportunity to observe specialized Ob/Gyn procedures and to learn about private practice by working directly with an Ob/Gyn Practitioner. Students are encouraged to attend weekly Ob/Gyn lectures and seminars whenever possible.

ELECTIVE NAME:

Reproductive Endocrinology

COURSE NO:

OGR 611

PREREQUISITE:

Required OB/GYN Clerkship

INSTITUTION:

Spectrum Health Butterworth

Spectrum Health Blodgett

OBJECTIVES & DESCRIPTION:

This elective rotation is flexible according to student interest and needs, but it concentrates on clinical problems in fertility control, reproductive endocrinology and female infertility. Under supervision, the student will see new and return-visit outpatients. Occasional inpatient admissions will be worked up and followed. Some male infertility may be included. Clinical experiences will include both in- and out-patient situations. In vitro fertilization techniques will be discussed.

EVALUATION:

Preceptor(s) will be asked to submit a written evaluation at the conclusion of the clerkship. Faculty are encouraged to provide ongoing feedback throughout elective rotations.
